

The W's, Bully Go Home

Bully go home, you got no reason to be near us now
I know you feel the need to create a scene
But the fact is you're not wanted here

I really don't care if you think that you're cool now - You're not
You know you can't just go and push him around
Beat him up and then throw him down

So take a final look
Take a final look for me
Before you take what's left
And display it for the world to see
Look once again and save the boys dignity

1, 2, 3, 4, then the music begins
You got the people dancin freely
As the room starts to spin
You got the one young man standin' alone
And you think the people are cheering you on
Bully go home

Describe the picture how you should look
Easy to be hooked, as you move in intently
Find flaws things that don't fit
Your superiority makes me sick
Your mentality gets the best of me
You and your friends and your click

So take a final look
Take a final look for me
Before you take what's left
And display it for the world to see
Look once again and save the boys dignity

1, 2, 3, 4, then the music begins
You got the people dancin freely
As the room starts to spin
You got the one young man standin' alone
And you think the people are cheering you on
Bully go home
