

The W's, Moses

Every once and a while I start to contemplate
how a person like me could be used by the great God
Then I look to those who lived before me
in their imperfections they showed God's glory

Moses and the burning bush everybody knows
That he was always doubting what God could do
Gideon could never understand how God could use
An itty bitty man like me

How can God ever use me?
I'm just a nobody
He sees everything about me
What can He see in me?
What can He see in me?
What can He see in me?

Peter said at one time "I will not fall away
Even if the consequence of death is what I pay"
"Before the rooster crows you will deny me three times
Saying I do not know this man he is no friend of mine"

Paul stood by as Stephen died and gave his support
Even when the rocks were thrown he showed no remorse
Beat down till he was dead
Paul, what a wretched man I am

How can God ever use me?
I'm just a nobody
He sees everything about me
What can He see in me?
What can He see in me?
What can He see in me?
