

# The W's, Tip From Me

I can understand why you think things are fine the way they are  
and I don't blame you, I've seen the example  
and I can't figure it out myself, figure out myself

I can see the silhouette of summer  
I can see the sun crashing through  
I can feel the rain but know it'll rain no more  
Please take this tip from me  
Please take this tip from me  
Show your love through me

Unity has turned up missing seen by all that look inside  
So called freedom, traded for bondage  
And I expect a change of mind, I wouldn't mind a change

I can see the silhouette of summer  
I can see the sun crashing through  
I can feel the rain but know it'll rain no more  
Please take this tip from me  
Please take this tip from me  
Show your love through me

I can see why you don't want this after all we've done for it  
We're known for love resembling hatred  
Proudly shown to humble all, I'm humbled by what shows

I can see the silhouette of summer  
I can see the sun crashing through  
I can feel the rain but know it'll rain no more  
Please take this tip from me
