

# The Wallflowers, How Good It Can Get

Slow down  
You're breaking up  
Use your words  
Don't yell so much  
I don't understand a word  
That you're saying  
Now move in  
Come up close  
You look like  
You've maybe seen a ghost  
Tell me  
Has someone gotten to you baby  
Now open your arms  
Pick up your head  
Open your eyes  
So you can see  
What happens next

You won't believe  
Just how good it can get  
We'll make a lover  
Out of you yet

The fog is so thick  
I can't see my hands  
It got much worse  
Soon as I got in  
And I know you're somewhere  
Here in the water  
It's ten feet deep  
And the river won't stop  
I'll tell you what's in it  
When I make it across  
You could make it too  
If you let someone help you

But you gotta give in  
And you gotta let go  
Then you can begin  
To come up slow  
Like a desert rose

[chorus]

Take a deep breath  
And hold it in tight  
And put your face up  
Right into the light  
Can't you feel that full moon  
Shining down on you  
Help is coming  
From the great unknown  
Just maybe not  
When you needed it most  
Cause I can see you already  
Know that you're leaving  
But I wish you'd stay  
And just let me in  
Cause everything can change  
But you gotta be ready  
Cause you won't know when

[chorus]
