

The Warning, More

There's something pulling me away
Something criminal but I can't fight it
Won't you tell me what to say
Or pull me in and keep me nice and quiet

Keep me here
Closer
In the clear

Just Kill the noise won't you fill my void?
Give it all up won't you feed my senses?

You know you love it
You love it when I need you
Do you need me? Yeah

You know I love it
I love when it when you feed me
Yet you leave me begging for more

I feel it slowly creeping in
I find desire leaves me frozen, stranded
Waiting between what could've been
Why am I sinking when I'm fully grounded

Standing still
Go in
For the kill

Just Kill the noise won't you fill my void?
Give it all up won't you feed my senses?

You know you love it
You love it when I need you
Do you need me? Yeah

You know I love it
I love when it when you feed me
Yet you leave me begging for more

I want it and you know it
Starved but never show it
You like it when I'm broken
You like it when I'm broken

You know you love it
You love it when I need you
Do you need me? Yeah

You know you love it
You love it when I need you
Do you need me? Yeah

You know I love it
I love when it when you feed me
Yet you leave me begging for more
