The Warning, S!CK

Sick

Help me now 'cause I only debase
When I see the problem staring straight at my face
I wanna kiss it, lick it, make it my own
Wanna taint the color till it's faded and gone

Bleeding just to feel alive
I'm rotting in my place
Life is nothing more than passing time

Give me violence
Kill the silence
Till it makes me feel, till it makes me feel
Till it makes me feel sick

I wanna make mistakes and live in regret
Don't wanna give, just take, get out of my head
And if I break it, fake it, don't care comes next
If there's a price to pay, I'll deal with it when I'm dead

Breathing just to live a lie
I'm rotting in my place
Sick and tired of always wasting time

Give me violence
Kill the silence
Till it makes me feel, till it makes me feel
Till it makes me feel sick
Leave me ruined
Show me that I'm human
Till it makes me feel, till it makes me feel
Till it makes me feel sick

I'm rotting in my place
I'm rotting in place
I'm rotting in place, I'm begging you
Give me violence
Kill the silence

Give me violence
Kill the silence
Till it makes me feel, till it makes me feel
Till it makes me feel sick
Leave me ruined
Show me that I'm human
Till it makes me feel, till it makes me feel
Till it makes me feel sick
