

# The Wedding Present, Mars Sparkles Down On Me

So, here I've got my brand new girlfriend  
And she's great in every way  
And you've got your new lover there  
So I guess we're both okay

And I know that we've been through this  
And we have to be apart  
But the thought of him lying in our bed with you  
It still just breaks my heart

Mars sparkles down  
On me

You say he wants to meet me  
Oh, I'm sure he's genuine  
But how can I just shake his hand  
When it's been all over your skin?

Mars sparkles down  
On me

I should stop calling on our wind  
But I won't  
I know I really should consider him  
But I don't

Mars sparkles down  
On me
