

# The Who, My Way

Well, come on, pretty baby, let's go out tonight  
Your mom won't have to worry, everything'll be alright  
Don't let me hear you talking, just be there when I call  
'Cause what I do I do my way or it won't be done at all

Little girl, can you hear what I say?  
I'm an easy going guy but I always gotta have my way

Yeah, I was born a tiger, always had my way  
Don't ever try to change me this or any other day  
Don't let me hear you argue the things I say I do  
Don't give me no trouble or you all and I are through

Little girl, can you hear what I say?  
Yeah, I'm an easy going guy but I always gotta have my way

You better believe it, baby
