

# The Wilkinsons, 1999

You called me by her name again  
Thinking I was her again  
When's this ever gonna end, oh

You're living somewhere in the past  
Missing love that didn't last  
And what we have is fading fast

(Oh...oh) this ain't 1999  
This is here and now  
You are mine  
But you're cheatin' on me  
Cheatin' on us  
Cheatin' yourself right out of love  
You're slipping away  
From me unconsciously  
And I'm losing you  
To some old memory

You're haunted by that ghost in you  
She always gets the most of you  
Just want to be that close to you

(Oh...oh) this ain't 1999  
This is here and now  
You are mine  
But you're cheatin' on me  
Cheatin' on us  
Cheatin' yourself right out of love  
You're slipping away  
From me unconsciously  
And I'm losing you  
To some old memory

I can't figure out what's wrong  
I can't change your mind  
But the only thing I know  
Is that I'm being left behind  
I'm being left behind

(Oh...oh) this ain't 1999  
This is here and now  
You are mine  
But you're cheatin' on me  
Cheatin' on us  
Cheatin' yourself right out of love  
You're slipping away  
From me unconsciously  
And I'm losing you  
To some old memory

This ain't 1999  
Thia ain't 1999
