

# The Wilkinsons, Fly (The Angel Song)

Sometimes I swear I live with an angel  
Sent from above to watch over me  
He wears his love just like a halo  
If he's not an angel, what else could he be?  
He wouldn't say he's anything special  
Betcha that's how all those angels are  
But when he comes around miracles happen  
I felt the first one when he touched my heart

Though I've never seen him fly  
On the wings of love he carries me  
Heaven bound I'm mystified  
How with just one kiss he made me believe  
In angels, though I've never seen him fly

This morning he walked up, smiled, and I kissed him  
I never let on that he's not foolin' me  
But I think it's so cute how he says he's from Houston  
I swear there's wings tucked up his sleeves

Though I've never seen him fly  
On the wings of love he carries me  
Heaven bound I'm mystified  
How with just one kiss he made me believe  
In angels though I've never seen him fly

Nooo, oooohhh  
Oo, Oo

Heaven bound I'm mystified  
How with just one kiss he made me believe  
In angels though I've never seen him fly
