

# The Yardbirds, An Original Man (A Song For Keith)

A man I knew  
Died too young  
And in the end  
His song unsung  
He touched my life  
He touched my soul  
Given time he'd reach his goal

An original man that I knew  
An original man right through

A sadness hidden  
Behind his gaze  
Before his time  
In many ways  
People copy,  
Take and steal  
But my friend he was for real

An original man that I knew  
An original man right through

Time gives  
And takes away  
Everybody has their day  
Even now  
I see your face  
You never left without a trace

An original man that I knew  
An original man right through
