The Zombies, Walking In The Sun

We'll be walking in the sun And share our joy with everyone

If they only knew The joy I share with you

They'd be walking in the sun (They'd be walking in the sun) (They'd be walking in the sun) They'd be walking in the sun (They'd be walking in the sun)

You will lie and walk with me And we will share our ecstasy Round the world They laugh and say Lovers ought to be that way

So please try to understand If I touch and hold your hand

If they only knew The joy I share with you

They'd be walking in the sun (They'd be walking in the sun) (They'd be walking in the sun) (They'd be walking in the sun) They'd be walking in the sun

You will lie and walk with me And we will share our ecstasy Round the world They laugh and say Lovers ought to be that way

So please try to understand If I touch and hold your hand

If they only knew The joy I share with you

They'd be walking in the sun (They'd be walking in the sun) (They'd be walking in the sun) They'd be walking in the sun (They'd be walking in the sun) (They'd be walking in the sun)
