

Thea Gilmore, Let's Make A Scene

La la da da da
La la da da da
La la da da da
La la da da da

Got all my fortunes walking up the road
Waking up the neighbours, loosening the load
There'll be no rehearsal, this is not a dream
There are no stations to choose between

Let's make a scene, let's make a scene
Let's burst some hearts, let's catch the steam

La la da da da
La la da da da
La la da da da
La la da da da

Come outta your houses, turn the radio on
There's a ghost dancing through the airwaves, she's not staying long

Let's make a scene, let's make a scene
Let's burst some hearts, let's catch the steam

La la da da da
La la da da da
La la da da da
La la da da da

Raise your glass, raise your hand
Though it's in your own excuse
You know I'll bet on anything
With nothing left to lose
There's some rules, there's a lot
There's some words to be arranged
There's a tune that is dying to be chained

To you who walks through thunder
To you who travel light
To you who travel under
Cover of night
Lay down your weapons
Come back to the start
Lay down your anger
And lay down your heart

Let's make a scene, let's make a scene
Let's burst some hearts, let's catch the steam

Oh, let's make a scene, let's make a scene
Let's trick the dark, let's rip the seams

La la da da da
La la da da da
La la da da da
La la da da da
La la da da da
La la da da da
La la da da da
La la da da da
