

Thea Gilmore, The Wrong Side

They got you walking on the wrong side
They got you walking with me
They got you walking on the wrong side
They got you walking with me
What a lie to tell
What a soul that they're gonna to sell you now

They got you walking on the wrong side
They got you walking with me
They got you walking on the wrong side
They got you walking with me
It's a hard case to make
And I'm hard news and I'm gonna break, now

They got you walking on the wrong side
They got you walking with me
When you gonna get off (this ghost train)?
When you gonna get off (this ghost train)?
When you gonna get off (this ghost train)?
When you gonna get?
When you gonna get off?

They got you walking on the wrong side
They got you walking with me
You should be walking on the left side
They got you walking with me
That such sweet relief
Could be holding hands with the master thief
They got you walking on the wrong side
They got you walking with me

When you gonna get off (this ghost train)?
When you gonna get off (this ghost train)?
When you gonna get off (this ghost train)?
When you gonna get?
When you gonna get off?
They got you walking on the wrong side
They got you walking with me
They got you walking on the wrong side
They got you walking with me
