

Thea Gilmore, When Did You Get So Safe?

God you must have some balls
To open your mouth at all
There's nothing happening
Around this scene youre in
And when did you get so safe?
Must be the last resort
To crash before youre caught
All you pretty mid-town boys
Pumping designer noise
And when did you get so safe?

Oh, those veiled love songs that you play
Have you really got nothing better to say?
And when did you get so safe?
Tell me when did you get so safe?

This is the reckoning
This is the mess were in
Your half smoked cigarettes
As risqu as you can get
And when did you get so safe?
Yeah, youre all outlaws then
Mavericks in Mercedes Benz
A smile before you go
Its revolution in a fashion show
And when did you get so safe?

Oh, those veiled love songs that you play
Have you really got nothing better to say?
And when did you get so safe?
Tell me when did you get so safe?
Tell me when did you get so safe?
