Thea Gilmore, When Did You Get So Safe?

God you must have some balls To open your mouth at all There's nothing happening Around this scene youre in And when did you get so safe? Must be the last resort To crash before youre caught All you pretty mid-town boys Pumping designer noise And when did you get so safe?

Oh, those veiled love songs that you play Have you really got nothing better to say? And when did you get so safe? Tell me when did you get so safe?

This is the reckoning
This is the mess were in
Your half smoked cigarettes
As risqu as you can get
And when did you get so safe?
Yeah, youre all outlaws then
Mavericks in Mercedes Benz
A smile before you go
Its revolution in a fashion show
And when did you get so safe?

Oh, those veiled love songs that you play Have you really got nothing better to say? And when did you get so safe? Tell me when did you get so safe? Tell me when did you get so safe?
