

# Therapy?, I Am The Money

Drink more wine, then break a leg  
Don't call me early, 'cos I'm not done yet  
Gonna take my faith and stained control  
Gonna take my feelings, that can go

So don't call me honey, 'cos I am the money  
So don't call me honey, 'cos I am the money

Feeling mortal, better put a bit back  
Never seen any porn that I didn't like  
A generation, a plague of zombies  
Don't go Yoko on me, on me

So don't call me honey, 'cos I am the money  
So don't call me honey, 'cos I am the money

It gets cold  
I'm down and out and I don't know your name again  
This could put me in a super black hole  
But I'm a genius, you're an asshole

So don't call me honey, 'cos I am the money  
So don't call me honey, 'cos I am the money  
So don't call me honey, (Don't call me honey) 'cos I am the money (I am the money)  
So don't call me honey, (Don't call me honey) I am the money
