

Therapy?, If It Kills Me

Tonight I'm so sky high
I can only see one star in the sky
Wanna get closer, put your name on it
Lift me up so I can reach it

If I do just one thing with my life
I'll get the truth for you tonight
'Cos there's more to me than my twisted side
I'll get the truth for you tonight

There are still things that I wanna do
There are still places that I wanna see
Find a hidden corner I can take you to
I've been around the world but it's seen right through me

And if I do just one thing with my life
I'll get the truth for you tonight
'Cos there's more to me than this twisted side
I'll get the truth for you tonight

If it kills me
If it kills me
If it kills me
If it kills me

Tonight I'm so sky high
I can only see one star in the sky
Wanna get closer, put your name on it
Lift me up so I can reach it

And if I do just one thing with my life
I'll get the truth for you tonight
'Cos there's more to me than this twisted side
I'll get the truth for you tonight

If it kills me
If it kills me
If it kills me
If it kills me

If it kills me
If it kills me
If it kills me
