Don't look now, don't look now
Don't look now, he's hiding in the shadows
With his little book, with his little book
With his little book, he's hiding in the shadows

Don't look now, don't look now
Don't look now, she's hiding in the shadows
With her little book, with her little book
With her little book, she's hiding in the shadows

Angry, angry, angry, angry, angry
Stalk and slash

And don't ask me, I blame the parents

Stalk and slash

Angry, angry, angry, angry, angry
Stalk and slash
