

Therapy?, This Ship Is Sinking

This ship is sinking
And I'm gonna go with it
Straight to the bottom
I'll push it back up

This ship is sinking
And it's taking me with it
Straight to the bottom
Where we belong

This ship is sinking
This ship is sinking
This ship is sinking
Sinking

My heart is broken
And you did it
It took you five minutes
And I died in an instant

And now
I'm going straight to hell
With a shipwrecked mind
And keelhauled as well
Yeah!

This ship is sinking
This ship is sinking
This ship is sinking
Sinking

The ocean's wide
And you dropped me in it
Now I need a bottle of wine to get me through this
And now
I'm going straight to hell
I'll probably see you there

This ship is sinking
This ship is sinking
This ship is sinking
Sinking
