

# They Might Be Giants, Escape From The Planet C

Escape from the planet of the apes  
Well we gotta escape from the planet of the apes  
'cause all our friends are on different planet  
Yes all my friends are on a different planet now  
Gotta escape from the planet of the apes  
Gotta escape from the planet of the apes  
I've got a starship that will take you to the planet where mick jagger lives  
We've gotta escape to the planet of the apes  
We've gotta escape to the planet of the apes before we explode.
