

# Thieves Like Us, Drugs In My Body

The days they go slow  
The nights they go fast  
Its only some time until we get together  
Im out in the street  
Im waiting for you  
Do you hear me do you hear me do you hear me looking?  
The method is clear  
Ive been waiting for you  
I think I need a distraction  
Im not staying in  
Im searching for you  
I can never I can never I can never find you!  
Go downtown with the drugs in my body  
Step back up on the life of the party  
Come back home and well get something started  
Stay up late with some heat in my body  
Go downtown with the drugs in my body  
Step back up on the life of the party  
Go downtown with the drugs in my body  
Go downtown with the drugs in my body
