Thin Lizzy, Rosalie/Cowgirl's Song

She's quite the mediator A smoother operator you will never see She'll see you later No one dare disobey her openly

She knows music I know music too, you see She got the power The teen queen, Rosalie

Rosalie Rosalie Rosalie Rosalie

She's got the pleasure Comes from all the cornerstones of the world She's so fantastic She's everybody's favorite little record girl

She knows music I know music too, you see She got the power I got the power, Rosalie

Rosalie Rosalie Rosalie Rosalie

Down on me, Rosalie Shine on me will you please

From Chattanooga to good old Booga Loosa You can hear her fine She makes the choices Then you'd best be smiling when it's choosing time

She knows music I know music too, you see She's got the power She is a tower, Rosalie
