

Third Day, Come On Back To Me

Come on back to me
Come on back to me
Come on back to me
Come on back to me

You've been hiding out for so long
I never understood why
Running far away from the truth
and all along chasing after lies

I have loved you from the beginning
long before you were mine, yeah
And even though you've broken my heart
I'll love you just the same
I'll love you anyway

Never mind your worries
Never mind your fears
They can only take you far from me
when you feel there's nowhere left for you to turn
I got all you want
and everything you need
come on back to me

Do you believe in second chances
With a love that never fades
Put your faith in what you can't see
just put your hand in mine
I'll show you the way

Never mind your worries
Never mind your fears
They can only take you far from me
when you feel there's nowhere left for you to turn
I got all you want
and everything you need
come on back to me

come on back to me (3x)

Never mind your worries
Never mind your fears
They can only take you far from me
oh when you feel there's nowhere left for you to turn
I got all you want
and everything you need
come on back to me
come on back to me
come on back to me
come on back to me now

come on back, come on back, come on back to me
come on back, come on back, come on back to me now
come on back to me
