

# Third Day, Long Time Comin'

Long Time Comin'

Well I've been taking  
It all for granted  
Everything that I, have been givin'  
Now it is the day, to start my mission  
It's been a long time a comin'

There are many, searching for answers  
Tell me who am I, to keep it to myself?  
I've grown weary of my own fears  
It's been a long time a comin'

Chorus:  
Well I've been running just like an outlaw  
And I am willing and I am able  
To give you something that you can believe on  
It's been a long time a comin'

True believers,  
Have been staring, up into the sky  
Waiting for your return  
And I know one day  
The clouds will roll down  
It's been a long time comin'
