

Third Eye Blind, Darkness

Blue come over
Born a joneser
The cops pull out the radar
And shoot devious grins
Another day begins
I want someone to know me
Maybe tell me who I am
'Cause I've faced down my demons
And cried out to a god
A god I've never seen
Lights
And the world darkens around me
Strange friends all surround me
New ideas in my head start to burn
Dropped out of schools 'cause of things that I never learned
And the world darkens around me
World darkens around me, yeah
World darkens around me, yeah
I want you to love me
Like you did before you knew me
And I never thought there'd be any help for somebody like me
A vacancy
Say
'Cause the world darkens around me
Strange friends all surround me
New ideas in my head start to burn
Trust no one, that's the one thing that I've learned
'Cause the world darkens around me
World darkens around me, yeah
Bring me the sun 'cause I slide off the moon
Bring me the sun
Slide off the moon
Yeah you better get home soon
There's no hope for people like you and me
There's no hope for people
Slide off the moon
Bring me the sun 'cause I slide off the moon
Bring me the sun
Slide off the moon
