

# Third World, I Wake Up Crying

By Burt Bacharach and Hal David

(Chorus &quot;A&quot;)

Save me save me save me save me  
Baby won't you save me  
From this misery

(Chorus &quot;B&quot;)

Save me, won't you, won't you, save me  
Baby won't you save me  
From this misery

I wake up crying  
After tossing and turning  
And yearning the whole night long  
Pretty baby since you went away  
I haven't spent a happy day

I wake up crying after  
Sobbing and sighing and wondering  
Just what went wrong  
Pretty baby I was good to you  
Why you gone and make me blue

I need your love to light up the night  
I need your heart to make things right  
I'm so unhappy on my own  
Don't, don't leave me sad and lonely

(Chorus &quot;A&quot; & &quot;B&quot;)

I wake up crying  
After tossing and turning  
And yearning the whole night long  
Pretty baby please come back to me  
Save me from this misery

Oh I need your love to light up the night  
I and I heart to make things alright  
I'm so unhappy on my own  
Don't, don't leave me sad and lonely

(Choruses &quot;A&quot; & &quot;B&quot;)
