

This World Fair, Don't Make Me Wait

Angel eyes, why do you look back?
And all this time, how did you know that
I'd be here
I'd be here
I'd be here
In this world all alone

So don't make me wait, honey
Don't make me say it out loud
Don't hesitate now, honey
Or it will all fall down

Angel eyes, why do you gaze?
Everytime I lose my way
You find me here
Find me here
Find me here
Find me here

So don't make me wait, honey
Don't make me say it out loud
Don't hesitate now honey
Or it will all fall down

Don't make me wait now, honey
Don't make me say it out loud
Don't hesitate now, honey
Or it will all fall down

All fall down

Don't make me wait, honey
Don't make me say it out loud
Don't hesitate now, honey
Or it will all fall down
