

Thomas Godoj, Love Is You

You caught my teardrops in your eyelid
You gave me strength to say hello
You found me stranded on your island
It felt like I was coming home

And i know that you're going places
Take a look
I'm right behind

Love is you
Seeing things like you do
Waking up next to you
Wanna give you all
All that i am
Love is you
You turn this world into
Something I never knew
A beauty surrounds you
Love is you

You let me dive in other waters
I close my eyes I learn to see
And I don't want to waste tomorrow
And I wont if you're there with me

Love is you
Seeing things like you do
Waking up next to you
Wanna give you all
All that i am
Love is you
You turn this world into
Something i never knew
A beauty surrounds you
Love is you
Love is you

You're my everything
My everything
My everything
My world just falls apart
When you're not here

You caught my teardrops in your eyelid
It felt like I was coming home...

Love is you
Seeing things like you do
Waking up next to you
Wanna give you all
All that I am
Love is you
You turn this world in two
Something I never knew
A beauty surrounds you
Love is...

You're my everything
My everything
My everything
My world just falls apart
When you're not here
Love is you...
