Thousand Foot Krutch, Wish You Well

Sometimes love feels like pain And sometimes I wonder if it's all the same Sometimes life feels just like rain Cause you never know when it's gonna fall down on you

I wish you well, I wish you well On this trip to find yourself I wish you well, wish I could help But I can't help you find yourself

Sometimes faith feels like doubt And sometimes I wonder if we'll ever get out Sometimes life hurts just like now But ya gotta know it's all gonna come back around

I wish you well, I wish you well On this trip to find yourself I wish you well, wish I could help But I can't help you find yourself

Find yourself I can't help you find yourself Find yourself

And we were sixteen at the time
Nothing could ever change our minds
We were one step below invincible
And we always fought it
You've never been the same
You were so scared to make a name
Then you threw it all away
And I wish you'd come back now

I wish you well, I wish you well On this trip to find yourself I wish you well, wish I could help But I can't help you find yourself

I wish you well, I wish you well On this trip to find yourself I wish you well, wish I could help But I can't help you find you

I wish you well, I wish you well On this trip to find yourself I wish you well, wish I could help But I can't help you find yourself

Find yourself I can't help you find yourself Find yourself I can't help you find yourself
