

Three 6 Mafia, Hit A Muthafucka

(Chorus)x2

I bet you won't
Hit a motherfucker, hit a motherfucker (Bitch)
Hit a motherfucker, hit a motherfucker
I bet you won't
Push a motherfucker, push a motherfucker (Hoe)
Push a motherfucker, push a motherfucker
I bet you won't

This ain't no game, we bring the pain
So don't you niggas trip
Fallin the club with all them thugs
And five extra clips
Deep always deep is how we come cause we ain't no joke
So when you hoes talk all this shit
We gonna cut ya throat
And let you chuck right out the door, the Three 6 Mafia game
Now I was pullin a fucking gun
We out so throw them thangs
Don't hit that white
Any why the fuck act like you crazy man
We know you niggas just some hoes
You let our nuts hang

(??)

And let me crack you mind up
Want to get you hypnotized cause you this scarecrow
Keep a mystic type of business than we run
You may not cap to the s's
Cause we young, my time, my flex
It's a futuristic and autistic mega plisto plex
I rack up many shots cuase on my run colegri pop
I make sure they get so wild, they bustin caps right on the spot
All around the planet rock, the ghetto clocks don't stop
My nigga gotta take a deep breathe
A keep blowin till they drop

(Chorus)x2

(??)

We ain't going to stop until some down people die up in the audience
Word up, push them to the floor
Put your foot in his guts so aple watch them fully trample
Shoot a pistol in the air, make it so kit kiddy can't handle
The crowd, the gotta ru rush before a few gonna get crushed
Crush crush, we got it buck buck (The Three 6)
And when the shows over I want to see (??) nothing but bodies
On the floor and they got no Three 6 (Surprise)

(??)

I heard the streets that a nigga has said, something about that nigga
I think his name was Cruchy Blac
But I walk up to his house, I knocked upon his door
When he came to the door, I hit him in the mouth
And I knocked him on the floor
Then I hit him and hit him somemore
Then I told that fucking boy
Shouldn't of ran his mouth about of the motherfucking prophet boys
Cause the prophet boys be hypnotizing all of ya'll
Ganna tear around your throat and drag you like you want

(Chorus)x2

(Gangsta Boo)

Why to styling at my face
Why you talks behind my back
Hitting you hitting you down when I (??) to attack
Never can't be fade
Cause this lady roll with right click
Now I'm talking shit
Call me misses mobb bitch
Smoking automos all you hoes boutin' my damn self
Never hanging with you skanks
Cause I'm bad for your health
Playa haters out you stars pullin' cars bout' yourself
