

Three Doors Down, Bigger than me

You're stuck on a chain
And you're towing the line
It seems like everytime that you catch up
you only fall behind
And you're trapped inside this world you made yourself
But thats not the world I live in
This is not the life for me
Cause my worlds bigger than your problems and its bigger than me
Thats not the world I live in
This is not the life for me
Cause my worlds bigger than your problems and its bigger than me
Theres always someone to blame
For the things you do to yourself..mmm
You think that everything thats going wrong is because of someone else
And you're trapped inside this world you made yourself
And thats not the world I live in
This is not the life for me
Cause my worlds bigger than your problems and its bigger than me
Its not the world I live in
This is not the life for me
Cause my worlds bigger than your problems and its bigger than me
And its bigger than me
Whooooa
Cause im on the outside
And Im looking in
And thats not the world I live in
This is not the life for me
Cause my worlds bigger than your problems and its bigger than me
Its not the world I live in
This is not the life for me
Cause my worlds bigger than your problems and its bigger than me
Cause my worlds bigger than your problems and its bigger than me
