

# Three Doors Down, Down poison

Ive  
dreamed about this, sixteen days away  
Now youre here, and my head lays  
Beside your body, pilowed unter mine  
You were poison, spinning round my mind  
Welcome to my world she said, do you feel alive she said  
Its all a bad dream spinning in your lonely head  
Welcome to my world she said, separated world, she stayed  
separates  
Down Poison,  
down poison  
Body withered, body died, time to take  
away this life  
Bad enough to die from  
one, not to mention  
four or five  
Welcome to my world she said, do you feel alive she said  
Its all a bad dream spinning in your lonely head  
Welcome to my world, she said, separated world, she stayed  
separated  
Down poison, down poison  
Down poison, down  
You weren't there for me, I was there for you  
You werent there for me, I was there for you  
You werent there for me, I was there for you  
You werent there for me, I was there for you  
You wouldnt die for me, Ive already died for you  
You wouldnt die for me, Ive already died for you  
You wouldnt die for me, Ive already died for you  
You wouldnt die, you wouldnt die, you wouldnt die, no !  
Welcome to my world she said, do you feel alive she said  
Its all a bad dream spinning in your lonely head  
Welcome to my world she said, separated world, she stayed  
separated  
Down poison, down poison  
Down poison, down
