

# Three Doors Down, My world

Your stuck on a chain  
And your toeing a lie  
Seems like everytime that you catch up  
You only fall behind  
And your trapped inside this world you made yourself  
but that's not the world I live in  
this is not the life for me  
cause my world is bigger than your problems  
and it's bigger than me  
that's not the world I live in  
this is not the life for me  
cause my world is bigger than your problems  
and it's bigger than me  
There is always someone to blame  
for the things you do yourself  
you think that everything that's going wrong  
is because of someone else  
And your trapped inside this world you made yourself  
that's not the world I live in  
this is not the life for me  
cause my world is bigger than your problems  
and it's bigger than me  
it's not the world I live in  
this is not the life for me  
cause my world is bigger than your problems  
and it's bigger than me [2x]  
cause i'm lonely outside and i'll look on in  
And that's not the world I live in  
this is not the life for me  
cause my world is bigger than your problems  
and it's bigger than me  
it's not the world I live in  
this is not the life for me  
cause my world is bigger than your problems  
and it's bigger than me  
cause my world is bigger than your problems  
and it's bigger than me...
