

Three Doors Down, Sarah yellin

She says, Ive got something to say
She knows what she says well change everything
She led through to many sleepless nights
Shes crying, shes crying, shes crying
Mother that man took my soul away
Father how could you ever treat me this way
Brother dont let him do this again
This time its over Im gonna make it end
Now its over and the old man is in
Lying on the ground bullet in his head
She stood at the foot of the guilty bed last night
She held what she said for the rest of her life
She did all what see said she is gonna do
Shes through, shes through, shes through, yeah
Mother that man took my soul away
Father how could you ever treat me this way
Brother dont let him do this again
This time its over Im gonna make it end
Now its over and the old man is in
Lying on the ground bullet in his head
Theres a bullet in your head
I kept falling down, I kept falling down
I kept crying out, I kept crying out
I keep falling down, I keep falling down
Im ready, Im ready, Im ready
Now its over, this is what she said
Hes lying on the ground bullet in his head
