

Three Doors Down, Smack

Rubber
headed motor junky, run me down and try to stop me
Trow my life away, and Ill be worthless
just like you
Somewhere noe a babys crying, down the road his mothers dying
Shot a line and bled her mind and now
shes turning blue
Dont you throw your life away, just wait until another day
Dont you throw your life away, cause baby I can feel it
Dont you ever compromise it, dont you even realive it
Dont you throw your life away, cause baby I can feel it, now
Trip and fall,
Im sure you all can tell me what is on the wall behing the
liquor stone where you get
smacked up all the time
Perfect little life you wasted, overdosed and that death you
tasted
Scared you back into yourself, and now
you walk the line
Dont you throw your life away, just wait until another day
Dont you throw your life away, cause baby I can feel it
Dont you ever compromise, it dont you even realize it
Dont you throw your life away, cause baby I can feel it, now
Life away
Life away
Life away
