

# Thunder, Stand Up

When you get up late for work in the morning  
And somebody's broken into your car  
Makes you feel like killing  
Maybe you'd be willing  
But you don't have to take it that far

Stand up, say who cares and stand up  
Cos when things drag you down  
You can't take it sitting down  
Stand up

You catch you girl making love with the postman  
And they're doing it in your very own bed  
She says he's giving her a letter,  
I think you should forget her  
And go out with her sister instead

Stand up, kick the cat and stand up  
Don't go crying on the floor,  
Just kick them out the door  
And stand up

Every now and then boy  
You gotta take it on the chin  
It's just another symptom of the world we're living in  
Everydays a battle,  
Sometimes you're gonna bruise  
But if you let it get you down you'll lose  
Stand up

Sit down

Sunday morning you relax with the papers  
All week long you've been working so hard  
Then you can't believe what you've seen on the page  
About a road they're gonna build through you yard

Stand up, shout about it stand up  
you don't have to beg them please  
Don't go down on your knees  
Stand up  
If they're gonna tread on you  
make them think before they do  
Stand up

Stand up, dont take it lyaing down  
Stand up
