

# Thy Art Is Murder, Shadow of Eternal Sin

Sever the tongues of the wretched  
Eradicate the filth of the divine

Ancient pariah cursed by the weak  
Encased in the flames  
Vengeance I now seek  
Vengeance I seek

Immortality awaits me for what I've become  
My insanity, my darkness within  
The skies will burn  
In the shadows of eternal sin

You all will suffer  
You will all rot the same  
You all will suffer  
You will all rot the same

Despise humanity  
Slaughter relentlessly  
Despise humanity  
Slaughter relentlessly

False prophecies etched in bone  
Lost souls they enthrall  
Man and serpent entwined  
Now rise to conquer all

Fallen figures born marked  
Their endless misery grows  
The procurer of their darkened faith thrives  
Bear witness to their endless torment  
The agony of the deprived

Sever the tongues of the wretched  
Eradicate the filth of the divine

Ancient pariah cursed by the weak  
Encased in the flames  
Vengeance I now seek  
Vengeance I seek

Let the blood of all humanity spill  
Erase this pathetic failure  
Let the blood of all humanity spill  
Erase this pathetic failure
