

Tidfall, Psychotronica

Come see inside my bones
This structure of bones, made by Thee
Metalized, immortalized
In my own pandemonium

Along with death I bring to you

Psychotronica
Still and breathless / cold as ice
Psychotronica

Let my rain penetrate your flesh
Iron rain.
The shadows of time reflect in the sea.
My sea of blood

I am the king of this realm,
And I taste the queen!
Keep your eyes upon thee
Don't look away
He gave me the lungs to blow you away
An infernal storm

Along with death I bring to you

Psychotronica
Still and breathless cold as ice
Psychotronica
