

Tie-Dye Quartet, Dreams

Childhood dreams of the way that things should be

Fooled me that there would be a prince out there for me

But fairy tales don't always come true

And I find myself in love with you

You are not the kind of guy I imagined I'd spend my life with

But baby it's true I'm in love with you

As I start to grow up I'm learning fast

That it's not about a big dress and photographs

All that matters now is you and me

Mutual dreams re-write my fantasies

I don't need a diamond ring and fancy party to tell me how you feel

'Cause baby I can see you're in love with me
