

Tiesto, Break My Fall

Break my fall
I found what is missing inside you
Break my fall
Na na na na na na na

You enter the room
You brighten the darkness my love
In moments with you
There is no ending or beginning in you

Move to the floor
The purpose combined my love
Like motion of stars
Dynamic symmetry in mind

Break my fall
I found what is missing inside you
Break my fall
Na na na na na na na
Break my fall
I found what is missing inside you

Break my fall
Na na na na na na na

Always with you
Connected by blood my love
A purpose fulfilled
You're my light in this dark, dark world

I've spoken within
I feel complete my love
The moments apart
Creating a light in the dark

Break my fall
I found what is missing inside you
Break my fall
Na na na na na na na
Break my fall
I found what is missing inside you
Break my fall
Na na na na na na na
