

Tiffany Alvord, My dream

When I was younger
You use to say
That all of my dreams would
Soon go away
But no matter what you say
I will always hold on
To that dream that I believe in
Cause it makes me so strong
And no matter what you do
I will never stop
Cause believin in that dream
Is the thing I've got
And my dream
Is gonna come true
Like the sun on a cloudy day
It's gonna shine through
And My dream
Will always go on
Even if it's just inside my heart
That's what makes me strong
I know that you could
Never change
What I want to be
Cause I know that's what makes myself me
And I've always looked up to the sky
When I was feeling down
But when I looked into my heart
That is where I found
The hope I need
The faith I want
The dream I see free
All I have to do now
Is just to be me
Cause my dream
Is gonna come true
Like the sun on a cloudy day
It's gonna shine through
And My dream
Will always go on
Even if it's just inside my heart
That's what makes me strong
Cause when I'm myself
I always know
Better than anyone else
The path that I should go
And I have always known what I want to do
I just need to believe
And always push through
Cause my dream
Is gonna come true
Like the sun on a cloudy day
It's gonna shine through
And My dream
Will always go on
Even if it's just inside my heart
That's what makes me strong
Cause that's what makes me
That's what makes me
That's what makes me strong
