

# Tiffany Evans, Angels On Earth

Have you ever walked down a dark road  
Not sure which way to turn  
Or been the passenger in a speeding car  
So afraid u might get hurt  
Somehow someone saved me  
An invisible hand and a intractable love  
There are angels on earth  
There right by your side  
You saved and you can't explain why  
When you think your alone  
And no one can hear your pray  
Angels on earth will be there (o yeah)  
Have you ever wished upon a shining star  
Hoped that your wish will come true  
Or watched somebody you loved passed on  
But strangely your not alone  
Somehow something guides you  
An invisible hand  
The most fearful love  
There are angels on earth  
There right by your side  
You saved and you can't explain why  
When you think your alone  
And no one can hear your pray  
Angels on earth will be there  
Forget when your in a hole  
Their right there to bring you home (o yeah)  
Just close your eyes  
And theyll help you to fly  
There are angels on earth  
There right by your side  
You saved and you can't explain why  
When you think your alone  
And no one can hear your pray  
Angels on earth will be there
