Tiffany Giardina, This Is My Life

Slow down, what's the big hurry? When did you forget? and life became a worry

All I want to do

Is lay down in the grass

And stare up at the stars

Instead of growing up too fast

Oh, oh

I'm taking time to feel the sunshine

Find out

Who I am and in my own time

From where I stand it's quite a view

Every day's brand new

This is my life, this is my life

Show time, don't you know the world's a stage

Cause we're not, just stories on a page

I'm gonna have some fun

Let my light shine bright

I'm gonna be the one

Trust myself and be all right

Oh, oh

I'm taking time to feel the sunshine

Find out

Who I am and in my own time

From where I stand it's quite a view

Every day's brand new

This is my life, this is my life

Everybody's chasing something

Trying to hold on to the dream

Looking in the wrong direction

Missing what they really mean

Oh, oh, oh

Oh, oh

I'm taking time to feel the sunshine

Find out

Who I am and in my own time

From where I stand it's quite a view

Every day's brand new

This is my life

Oh, oh

This is my life
