

Tiger Army, Power Of Moonlite

Riding alone through the night
Things couldn't be farther from right
Who made this world of misery?
I want no part of it, I think I'm gonna leave

That's when
The Power of moonlite - Shines down on me and seeps into my soul
The Power of moonlite - It calls to me from ages long ago
The Power of moonlite - A haunting whisper that I'll never grow old
Far away the nighttime tides are calling to me
Reject the daylight
Full moon tonight

All the filth and all the dirt
The madness of this spinning world
Trapped down here, brought down and down and then
Just like the moon at twilight I will rise again

That's right
The power of moonlite- Shines down on me and seeps into my soul
The power of moonlite- It calls to me from ages long ago
The power of moonlite- A haunting whisper that I'll never grow old
Far away the nighttime tides are calling to me
The moons purity
Your power unto me

And just like the moon
Just like the moon
Just like the moon
I will rise again
Rise again
