

Tiger Army, Valley Of Dreams

Night eternal in the Valley of Dreams
It is said not to exist but I have seen
If you come with me we could stay forever
Into the endless that you cannot leave

I prowl the night
A tyger, tyger burning bright
There's something in the air
Forever searching but I find it nowhere

Until the burning in my heart
Turns to ash and I'm laid to rest
Until the tears of blood don't drop
Like rain falling from the sky
This is what I am

Alone in this world because we're not like them
We see the things that they cannot see
We've tasted things of which they'll never know
No matter day or night, forever lost in dreams
