

Tiger Lou, Trust Falls

These old streets all have a history
And years from now they will tell
Tall tales about the mystery
Of how we did trust falls
But never fell
Yes we did trust falls
But never fell

These are the corners we must turn
They will guide us through this town
These are the buildings we must burn
They will all come crashing down
And through the ruins we will walk
Through the ruins we will walk
Over and over again

This old city and all its treachery
We'll watch it all crumble down
As we do trust falls
But never touch the ground
Yes we do trust falls
But never touch the ground

These are the corners we must turn
They will guide us through this town
These are the buildings we must burn
They will all come crashing down
And through the ruins we will walk
Through the ruins we will walk
So dark the city, so dark the life
We'll watch it all crumble down
Through the ruins we will walk away
Yes through the ruins we will walk away
Over and over again
