Ring a ling ling ding dong
Please connect me to prince charming
Ring a ling ling ding dong
I want wait to hold you tight

All fairytales are filled with love and passion
For us to learn about the true romance
But in real life it's so hard to kill the dragon
You're lucky if you get a second chance

All I want is a man with a heart like
The knight of the legion of honour
Then my journey will end
There'll be no more pretend
I surrender to you

You came to me in silver shining armour
An ancient ghost from the sky above
Your magic touch, surround me with your power
I feel locked up inside the castle of love

Please connect me to prince charming
Be my hero be my light

Please connect me to prince charming
I can't wait to hold you tight

All I want is a man
Who will fight for my honour
Who will love me all night,
Hold me close hold me tight

The magic touch surrounds me with your power
Locked up in the castle of love
