

# Tila Tequila, Summer Nightfalls

Verse 1:

All our friends keep wondering but they don't know that....

You and I have secret lives yet they don't realize.

When they aren't looking, we keep on kissing, the fun we're having...Hiding our love from the world

Chorus:

Summer nightfalls with endless dreams....

of you and I together always.

Taking trips and leaving town...

Go to a place where there's no one around...there's no one around...

Verse 2:

I thank you for all the times when you made me smile.

No matter what happens now you will always be my pal.

We run around and cause a ruckus...we can't stop laughing.

These memories will fill our lives with hapiness...

Chorus:

Summer nightfalls with endless dreams....

of you and I together always.

Taking trips and leaving town...

Go to a place where there's no one around...there's no one around...

I thank you for all the times when you made me smile...no matter what happens now you will always

Chorus:

Summer nightfalls with endless dreams....

of you and I together always.

Taking trips and leaving town...

Go to a place where there's no one around...there's no one around...
