

Tilt, Yellow Bellies

Make the sink a virgin genuflect and piss in it
Worth all the seamy novelties we ripped off at the joke store
We could be immortal the way we get away with it
We ridicule the mannequins who come here just to look bored

(chorus)

Nicotine molested taste it on our fingertips
Black tongue and vodka spit well
Nicotine molested taste it on our fingertips
Black tongue and vodka spit well
Little yellow bellies
Little yellow bellies
Walking side by side
Side by side

Welding up the air hole indicates we'd better go
Kicked out of a trailer park unconscious in a shoe store
We may be immortal the way we get away with it
Proudly stolen cuts of meathemorrhage on the counter top

We live and live (x7)
